

# Starke Arvid Board Trolley Mini

*Simply ingenious*

The simple but ingenious design of our Board Trolley Mini makes it perfect for transporting small quantities of board materials that are normally carried by hand on building sites. This trolley will shift up to twelve 13 mm plasterboards ergonomically through tight passages.

The Board Trolley Mini does whatever is asked of it, but really comes to the fore in conversion and extension work, and other small projects. This universal trolley is capable of carrying most things; wet room plasterboard, fibre cement boards, apartment doors, etc., and fits snugly into a conventional lift and the boot of a car.

## **Product Features**

Two swivel castors, one lockable, enable two people to manoeuvre the trolley. The optimal angle of the uprights ensure that the board sits firm during transportation. The uprights double up as handles and can be unscrewed to reduce the size of the trolley for transportation.

- **The load does not block the view or form a large overhang**
- **Two rear swivel castors, one lockable**
- **The uprights are easily secured and removed**
- **Folded edge on the short side to reduce wear and tear to the boards**

A simple but versatile product that offers maximum mobility by not taking up more space than the material it is carrying.

A versatile transport trolley for board material.

Handles most board material ergonomically.

## Technical Specifications

Product Number	10700
SRA code	161122
Load capacity	350 kg
Overall width	640 mm
Width, platform	220 mm
Length	1130 mm
Height	1180 mm
Weight	40 kg
